

The Compañeros Program

[go/compas/](https://go.compas/)

Hola! Welcome to the Compas home page where you can learn more about who we are, what we do, how to get involved, and more. Read below for more information and email us at juntos@middlebury.edu if you have any questions.

Our Mission

The Compañeros program aims to bridge the gap between migrant workers and the Middlebury community through English lessons. By connecting two communities who seldom interact (college students and migrant workers), Compas aspires to create a vibrant and connected community founded on meaningful relationships between students and migrants.

The in-person tutoring sessions are held each Sunday from 2-4pm in the CCE. They provide opportunities for migrant workers to boost their English speaking, reading and writing skills. The sessions are facilitated by Juntos board members and Middlebury student volunteers. Feel free to pop by and check it out!
